ALPHABETICAL INDEX TO VOLUME 36

	Issue No.	Page No.
Activated sludge plant, Chemical composition of treated thermomechanical pulp effluent from	6	456
Adaptation of twin-wire formers for lightweight papers	6	471
Analysis of the surfaces of *Pinus radiata* pulp fibres by X-ray photoelectron spectroscopy	3	205
Anthraquinone-assisted pulping, Colorimetric determination of anthraquinone in pulping liquor pulps and papers	2	122
Appita — L. R. Benjamin Medal 1982	1	9
Application of predictive maintenance to the pulp and paper industry	1	47
Bleaching — Efficient ozone and peroxide bleaching of alkaline pulps from *Pinus radiata*	1	42
Chemical composition of treated thermomechanical pulp effluent from an activated sludge plant	6	456
Chemimechanical pulping of softwoods, Sulphonation treatments for	4	301
Coating — Weipa: a new kaolin source for paper coating	3	211
Colorimetric determination of anthraquinone in pulping liquor pulps and papers from anthraquinone-assisted pulping	2	122
Colour reversion aspects of mixed bamboo *(Neohauzeaua dulloa [Teinostachym]* and *Phyllostachys bambusoides [50:50])* kraft pulps	4	282
Co-operative Research in the New Zealand Pulp and Paper Industry	5	349
Conference Delegates to see Bush Fire Damages	5	353
Corrosion aspects of a welded repair on continuous pulp digesters	2	126
Countercurrent soda-anthraquinone pulping of hardwood and pine mixtures	6	444
Directions in Mechanical Pulping	2	98
Does the Forest Need a Pulp Industry?	4	265
G. G. Duffy wins 1982 Appita — L. R. Benjamin Medal	5	344
Economic benefits from paper machine simulation	5	377
Efficient ozone and peroxide bleaching of alkaline pulps from *Pinus radiata*	1	42
Effluent — Chemical composition of treated thermomechanical pulp effluent from an activated sludge plant	6	456
Electron spin resonance investigation of quinone-assisted soda pulping	3	219
Eucalypt wood species, A survey of chlorides in	4	293
Experience with moisture profile and reel hardness control by spray dampening in newsprint manufacture	2	134
Experiences with metal spraying of a Yankee cylinder	2	130
The fibres of radiata pine mechanical pulps	4	272
Forest plantings and management options for *P. radiata* and their relation to end products	1	56
From the President	3	175
Hydroxyethylation of lignin in mechanical pulps	3	192
The importance of special pumps for the pulp and paper industry	2	139
In-house instrumentation	4	298
International Standards for the Pulp and Paper Industry, The Preparation of	2	100
Kraft bleach effluent, Removal of colour, COD and toxicity from	1	52
Launceston Revisited — Report on 36th General Conference	1	10
Machine gear noise reduction using constrained viscoelastic material	1	39
Mechanical pulping, Directions in	2	98
Mechanical pulping, Wood mechanics and	1	32
Mechanical pulps, Hydroxyethylation of lignin in	3	192
Mechanical pulps — Peroxide bleaching of mechanical pulp from *Pinus radiata*	5	362
Mechanical pulps, radiata pine, The fibres of	4	272
Microcalorimetry, a new technique for studying slime problems in papermaking waters	1	26
Mixed bamboo kraft pulps, Colour reversion aspects of	4	282
A new stress corrosion resistant stainless steel for pulp storage tanks	2	144
Non-destructive testing and condition monitoring at NZFP Kinleith Mill	2	106
On the tear resistance of paper	6	461
P. radiata — Forest plantings and management options for *P. radiata* and their relation to end products	1	56
Paper machine simulation, Economic benefits from	5	377
Peroxide bleaching of mechanical pulp from *Pinus radiata*	5	362
Predictive maintenance, The application of, to the pulp and paper industry	1	47
The Preparation of International Standards for the Pulp and Paper Industry	2	100
Pressure screening — principles and practice	5	311
Pulping — Countercurrent soda-anthraquinone pulping of hardwood and pine mixtures	6	444
Pulping quality of *E. globulus* from Tasmanian provenances, Variability in	5	371
Pulping — Refining forces in high stock concentration pulping	2	116
The Pulpwood Industry — Servant or Master?	6	425
Quinone-assisted soda pulping, Electron spin resonance investigation of	3	219
Rebuild of a suction breast roll former	4	308
Recovery of Paper from the Municipal Solid Waste Stream	3	180
Refining forces in high stock concentration pulping	2	116
Removal of colour, COD and toxicity from kraft bleach effluent	1	52
Report on 36th General Conference—Launceston Revisited	1	10
Runnability — Winder operation improvement for better press runnability	4	288
Simulation of tensile properties of newsprint	3	197
Slime problems — Microcalorimetry, a new technique for studying slime problems in papermaking waters	1	26
South East Asian Co-operation Trust Fund	1	20
Special pumps for the pulp and paper industry, The importance of	2	139
Spray dampening in newsprint manufacture, Experience with moisture profile and reel hardness control by	2	134
Stainless steel — A new stress corrosion resistant stainless steel for pulp storage tanks	2	144
Steam shower applications on a paper machine	3	226
Suction breast roll former, Rebuild of	4	308
Sulphonation treatments for chemimechanical pulping of softwoods	4	301
A survey of chlorides in eucalypt species	4	293
Te Papapa Paper Mill	4	263
Tear resistance of paper, On the	6	461
Tensile properties of newsprint, Simulation of	3	197
Tree improvement — first results from a radiata pine production forest	5	386
Twin-wire formers, Adaptation of, for lightweight papers	6	471
Variability in pulping quality of *E. globulus* from Tasmanian provenances	5	371
Weipa — a new kaolin source for paper coating	3	211
Winder operation improvement for better press runnability	4	288
Wood mechanics and mechanical pulping	1	32
The Woodchip Export Industry	6	426
X-ray photoelectron spectroscopy, Analysis of the surfaces of *Pinus radiata* pulp fibres by	3	205
Yankee cylinder, Experiences with metal spraying of	2	130
